

Stockley Park Estates Company Ltd

Policy 2023

Biodiversity Policy

Stockley Park Estates Company Ltd (SPECL) is committed to the principles of environmental protection and sustainable development with the aim of reducing its environmental impact.

SPECL recognises and accepts its ethical and legal responsibilities in the stewardship of biodiversity on our land holdings. SPECL will take action, whilst continuing to ensure that business objectives are being met to:

1. Comply with relevant legislation and statutory codes of practice.
2. Assess the biodiversity implications of new or emerging legislation to ensure that business operations align with new standards.
3. Manage our land and water holdings to conserve and, where reasonably practicable, enhance biodiversity.
4. Plan and manage our grounds and landscape activities to avoid loss of biodiversity.
5. When commissioning and undertaking projects (including capital works schemes, other projects and maintenance schemes) likely to result in disturbance or other impact to land and/or water, endeavour to avoid damaging wild species and their habitats and, where appropriate, create opportunities for biodiversity enhancement.
6. Collect and use significant biodiversity information, to inform planning and operational activities.
7. A Biodiversity Management Plan is in place to help meet these objectives.

Monitoring and Review

The biodiversity policy will be implemented and monitored by the Estates Team.

Progress towards achievement of the Biodiversity Management Plan will be reviewed periodically by the site Landscape Management Team.
