

STOCKLEY OCCUPIERS: SUNTORY BEVERAGE & FOOD GB&I

Since 2014, Suntory Beverage & Food GB&I (SBF GB&I) has made Stockley Park its home, and although its head office is in the UK, the company is unique to have British brands, a European network and Japanese culture.

Suntory Beverage & Food GB&I

Suntory Beverage & Food GB&I was established in 2014 and is part of Suntory Beverage & Food Europe - one of the five regional divisions of the Japan-based Suntory Group, one of the world's leading food and beverage companies. The company's much loved soft drink brands have been top of many a shopping list for families from

as early as 1927, and include Lucozade Energy, Lucozade Sport, Ribena and Orangina.

SBF GB&I is constantly evolving its brands to be tastier, healthier and more sustainable. The business is always looking at how it can improve the taste of its most popular drinks, creating new zero sugar variants for its most popular brands and exploring sustainable packaging solutions to increase circularity.

Philosophy

The business is driven by its “**Yatte Minahare**” spirit, inspired by its founder Shinjiro Torii and which means to dream big, take challenges and never give up. The company’s strong culture guides it towards creating harmony with people and nature and its goal to provide a responsible choice of great-tasting drinks for consumers.

As well as Yatte Minahare, another core value for SBF GB&I is **Giving Back to Society**. The company gives back from what it earns, not only by reinvesting in our company, but by caring for its customers and partners and contributing to society. Across Europe its employees come together to contribute to volunteering, charitable giving, fundraising and performing small acts of kindness that together have a positive impact on society and planet. This is a value echoed across Stockley Park as we often arrange group litter picks and other volunteering activities that businesses here can get involved in.

At Stockley Park, drinks are often generously donated by SBF GB&I for the enjoyment of all attendees at running events and for the annual Film Festival.

Giving back and never giving up leads to the third value of Suntory Beverage & Food GB&I; **Growing for Good**. It provides a focus on sustainable growth as the company realises that both good and growth are equally important. The business recognises that the larger it grows, the greater its capacity to give back.

Sustainability

SBF GB&I’s Growing for Good sustainability strategy brings together the most important social and environmental impacts of the business and drives action that benefits consumers, partners, employees, and the communities in which the business operates. In each case, the business aims to maximise the positive impact it can make. This means creating drinks that bring joy to people’s lives while keeping them healthy and active, supporting and developing employees, and engaging with communities through initiatives that change lives. At the same time, SBF GB&I works to minimise the negative impacts of its business by reducing carbon emissions and water use, committing to sustainable packaging to increase circularity and ensuring its supply chain is ethical and transparent.

But Growing for Good is not simply a sustainability plan: it is at the heart of the whole business strategy. It compels Suntory Beverage & Food GB&I to run an efficient and agile company that invests in its people and focuses on sustainability. It’s a key value that will drive the whole of Suntory Group forward over the years to come; continue to grow its ambition, set targets that will drive positive change, and increase the transparency and frequency with which Suntory Beverage & Food GB&I reports its progress.
